Subcontracting Program - FAR 19.7

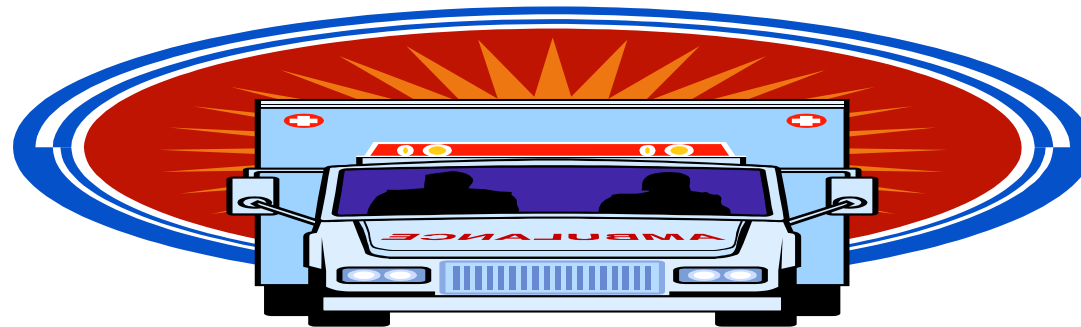

Any contractor receiving a contract for more than the simplified acquisition threshold must agree in the contract that small, small disadvantaged, women-owned, HUBZone, service-disabled and veteran-owned small business concerns will have the maximum practicable opportunity to participate in contract performance consistent with its efficient performance

Prime contractors must also establish procedures to ensure the timely payment of amounts due pursuant to the terms of their subcontracts with small, small disadvantaged, women-owned, HUBZone, service-disabled and veteran-owned small business concerns.

In negotiated acquisitions expected to exceed \$500,000 (\$1,000,000 for construction) and that has subcontracting possibilities, shall require the apparently successful offeror to submit an acceptable subcontracting plan.

We recommend that you investigate the use of the Sub-Net database. Sub-Net is a database online by the Small Business Administration (SBA). It can be accessed via the World Wide Web at <http://web.sba.gov/subnet/>. Prime contractors should use SUB-Net to post subcontracting opportunities. These may or may not be reserved for small business, and they may include either solicitations or other notices -- for example, notices of sources sought for teaming partners and subcontractors on future contracts. Small businesses can review this web site to identify opportunities in their areas of expertise. While the web site is designed primarily as a place for large businesses to post solicitations and notices, it can also be used by Federal agencies, state and local Governments, non-profit organizations, colleges and universities, and even small businesses for the same purpose. The new web site will shift the traditional marketing strategy from the shotgun approach to one that is more focused and sophisticated. Instead of marketing blindly to hundreds of prime contractors, with no certainty that any given company has a need for their product or service, small businesses can use their limited resources to identify concrete, tangible opportunities and then bid on them.

The Prime Contractors Small Business Liaison Directory gives you point of contacts for all the prime contractors' small business liaisons, with their address, email, telephone, fax, and type of business as well as a listing of their potential subcontracting opportunities. You as small businesses must market the prime contractors. You may contact Ms. Lynette Simmons at (202) 565-8136 or Mr. Mark Taylor (202) 565-8128 if you need assistance in identifying potential subcontracting opportunities with the prime contractors.

AMBULANCE SERVICES

COMPANY: Rural Metro Medical Services

ADDRESS: 6405 218th Street, S.W.

CITY: Mountlake, **STATE:** WA **ZIPCODE:** 98270

SMALL BUSINESS LIAISON: Mr. Mike Osborne - Mr. Rob Zachrich

EMAIL ADDRESS: Mike_Osborne@rmetro.com; rob_zachrich@metro.com

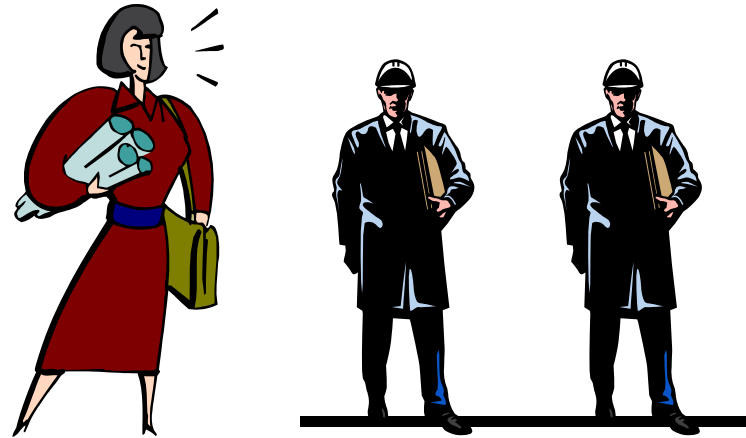

TELEPHONE NUMBER: (425) 744-8706

FAX NUMBER: (425) 771-3891
